<b>A</b>	<p>Collapse action. Toggle open and close on click.</p> <ol style="list-style-type: none"> <li>1. The nav component's collapsed state. Expand on click.</li> <li>2. The nav component's collapsed location in a layout.</li> </ol>
<b>B</b>	<p>Add New Report Button</p> <p>Use this to create a new customized report to be added to My Reports. Click takes user to report customization piece.</p>
<b>C</b>	<p>My Reports.</p> <p>Click opens My Reports management CRUD in content area to the right of the nav.</p>
<b>D</b>	<p>My Recent Reports.</p> <p>Click opens up accordion panel showing 5 most recently viewed reports.</p> <p>Requirements for what qualifies as a recently viewed report still TBD.</p>
<b>E</b>	<p>My Shared Reports.</p> <p>Click opens My Reports management CRUD in content area to the right of the nav. Pre-filtered by shared report status.</p>
<b>F</b>	<p>Navigation Section Title.</p> <p>This section title is a label only and does <b>NOT</b> carry any action for click or hover. Will receive a specific visual design treatment when a report in this section is selected.</p>
<b>G</b>	<p>Level 1 Item.</p> <p>Has a hover and selected state.</p>

## Drill-In Expanded View

A	User clicks level 1 item, My Reports. Visual treatment will be applied to selected level 1 item. A selected item does not receive a hover treatment. Only unselected menu items have a hover treatment.
B	Level 2 accordion menu appears below clicked level 1 menu item. Note on accordion behavior: Only one accordion section will be open at any given time to prevent the contextual nav from growing too tall.
C	Hover level 2 accordion item
D	Click level 2 accordion item. Item receives visual treatment and content area to the right is updated with the appropriate report. On release, the accordion stays open with the selected level 2 item indicating the selected state. The accordion does not close this section until another section is clicked.
E	E.1 Default view E.2 Expanded accordion

Normal State

User Clicks on Sell-Through

<b>A</b>	User clicks level 1 item, Sell-Through. Visual treatment will be applied to selected level 1 item.
<b>B</b>	Level 2 menu is exposed showing: <ul style="list-style-type: none"> <li>- Overview</li> <li>- By Audience</li> <li>- By Publisher</li> <li>- By Inventory</li> </ul>
<b>C</b>	C.1 - Normal state C.2 - Expanded state

## Normal State

Age	Country	
Gender	State/Province	
Age + Gender	City	
	DMA/MMA <b>E</b>	
		<b>Technographics</b>
		Browser
		Operating System

<b>A</b>	User clicks level 2 item, By Audience. Single fly out menu appears. See B.
<b>B</b>	Fly out menu for Sell-Through > By Audience
<b>C</b>	Sell-Through > By Audience header is clickable and will take the user to the general report.
<b>D</b>	Level 3 item is clickable and will take the user to that specific report.
<b>E</b>	Level 4 item is clickable and will take the user to this most detailed report.
<b>F</b>	F.1 - Exposed panel showing level 2 items. F.2 - Placement of menu is adjacent to the contextual nav

## Notes on closing menus:

1. Clicking a different parent nav item will dismiss fly-out menu.
2. Clicking outside of nav hot zones will dismiss fly-out menu.
3. Selecting a specific report will dismiss fly-out menus.
